Some cerebrospinal aspects of consciousness (Crawford J. P.) 201 (4916) 274-277, 1964

Calcium and the adenosine triphosphatase activity of the developing rat retina (Mary J. Towlson) 201 (4919) 295-296, 1964

Evidence of an aminoacyl ribonucleic acid synthetase activity in calf lens (Virmaux N. & Mandel P.) 201 (4916) 297-298, 1964

Release of tritiated epinephrine following sympathetic nerve stimulation (Rosell S., Axelrod J. & Kopin I.J.) 201 (4916) 301 only, 1964

Possible significance of the isoenzymes of lactic dehydrogenase in the retina of the rat (Clive Craymore) 201 (4919) 615-616, 1964

The camel capillary (Montgomery P. O'B., Ashworth C. T. & Fontaine P.) 201 (4919) 624-625, 1964

Effect of ethanol and acetaldehyde on liver and brain monoamine oxidase (Towne J. C.) 201 (4920) 709-710, 1964

Dihydromorphine in peripheral nervous tissue (Kosterlitz H. W., Thompson J. W. & Wallis D. I.) 201 (4920) 719 only, 1964

Failure to find increased sodium, potassium-ATPase in redcell ghosts of schizophrenics (Parker J. C. & Hoffman J. F. ; Seeman P. M.) 201 (4921) 823-824, 1964

Acetylcholine and nerve activity (Ehrenpreis S.) 201 (4922) 887-893, 1964

Lipotropin, a new active peptide from pituitary glands (Choh Hao Li) 201 (4922) 924 only, 1964

Protective effect of encephalitogenic factor in experimental allergie encephalomyelitis (Field E. J. & Caspary E. A.) 201 (4922) 936 only, 1964

Action of acetylcholine extracted from brain on spinal renshaw cells (Ryall R. W., Stone N. E., Curtis D. R. & Watkins J. C.) 201 (4923) 1034-1035, 1964

Effect of sensory stimuli on amphetamine toxicity in aggregated mice (Cohen M. & Harbans Lal) 201 (4923) 1037 only, 1964

Melatonin synthesis in the hen pineal gland and its control by light (Axelrod J., Wurtman R. J. & Winget C. M.) 201 (4924) 1134 only, 1964

Sedimentation behaviour and molecular weight of choline acetyl-transferase

(Bull G., Feinstein A. & Morris D.) 201 (4926) 1326 only, 1964

Protective effect of gamma-aminobutyric acid on experimental ammonia intoxication (Manning R. T., Thorning D. & Falleta J.) 202 (4927) 89-90, 1964

Effect of adenosine triphosphate and monovalent cations on brain 5'-adenylic acid deaminase (Amir Askari) 202 (4928) 185 only, 1964

Correlation between brain catecholamine and sedative action of reserpine (Matsuoka M., Yoshida H. & Imaizumi R.) 202 (4928) 198 only, 1964

Molecular weight of sheep pituitary interstitial cell-stimulating hormone (Choh Hao Li & Starman B.) 202 (4929) 291-292, 1964

Oxidation of reduced nicotinamide nucleotides in the central nervous system of some marine invertebrates (Aloj E. & Giuditta A.) 202 (4931) 494-495, 1964

Brain serotonin in experimental tyrosinosis (David Yi-Yung Hsia, Justice P., Berman J. L. & Brenchley Y.) 202 (4931) 495-496, 1964

Failure to detect 3, 4-dimethoxyphenylethylamine in the urine of schizophrenics (Perry T. L., Hansen S. & Macintyre L. ; Friedhoff A. F. & Winkle E. V.) 202 (4931) 519-520, 1964

Detection of naturally occuring cholinesterase inhibitors in several crops by paper chromatorgraphy (Menn J. J., McBain J. B. & Dennis M. J.) 202 (4933) 697-698, 1964

Coenzyme Q and phenylketonuria (Napier E. A., jun., Kreyden R. W., Henley K. S. & Pollard H. M.) 202 (4934) 806-807, 1964

Erythrocyte glutathione-levels in patients of a mental hospital (Ellman G. L. & Gan G. L.) 202 (4935) 904 only, 1964

Serotonin receptors : V. Selective destruction by neuraminidase plus EDTA and reactivation with tissue lipids (Woolley D. W. & Gommi B. W.) 202 (4937) 1074-1075, 1964

Myelin-like figures formed from mitochondrial material (Sjostrand F. S., Cedergren E. A. & Karlsson U.) 202 (4937) 1075-1078, 1964

Preservation of viability in the isolated monkey brain utilizing a mechanical extracorporeal circulation (White R. J., Albin M. S. & Verdura J.) 202

(4937) 1082-1083, 1964

Formative significance of photoreceptive and ganglion cells of the retina of the eye (Popov V. V. & Farberov A.I.) 202 (4937) 1120-1121, 1964

A theory of passive ion flux through axon membranes (Lettvin J. Y., Pickard W.F., McCulloch W.S. & Pitts W.) 202 (4939) 1338-1339, 1964

Proc. Soc. Exp. Biol.

Effect of epinephrine on metabolism of thyroxine by pituitary and brain. (Grinberg, R.) 116 (1) 35-38, 1964

Effect of brain removal in dogs previously subjected to pituitary stalk section. (Wise, B.L., E.E. Van Brunt and W.F. Ganong) 116 (2) 306-310, 1964

Effect of anoxic-ischemic procedure on experimental epilepsy in the rat. (Payan, H., S. Levine and R. Strebel) 116 (2) 454-456, 1964

Drug effects on epinephrine release from rat adrenal medulla homogenates and granule preparations (Greenberg R. and H.C. Sabelli) 116 (3) 705-712, 1964

Biochem. J.

Studies on the acylation of lysolecithin by rat brain (Webster G.R. & Alpern R.J.) 90 (1) 35-42, 1964

Chemical studies in relation to convulsive conditions. Effect of Telodrin on the liberation and utilization of ammonia in rat brain (Hathway D.E. & Mallinson A.) 90 (1) 51-60, 1964

Studies on esterases in the chicken central nervous system (Poulsen E. & Aldridge W.N.) 90 (1) 182-189, 1964

The separation of synaptic vesicles from nerve-ending particles ('synaptosomes') (Whittaker V.P., Michaelson I.A. & Kirkland R.J.A.) (With four plates) 90 (2) 293-303, 1964

Polybasic and polyacidic substances or aggregates and the excitability of cerebral tissues, electrically stimulated in vitro (McIlwain H.) 90 (2) 442-448, 1964

The distribution of hypothalamic peptidases in pregnant and non-pregnant dogs (Hooper K.C.) 90 (3) 584-587, 1964

Protein synthesis and amino-acid transport in the dystrophic retina (Reading H.W. & Sorsby A.) 90 (3) 38p-39p, 1964

Bound and free amino acids in brain (Elliott K. A. C., Dahl D. R. & Balazs R.) 90 (3) 42P-43P, 1964

The hydrolysis of triphosphoinositide by extracts of ox brain (Thompson W. & Dawson R. M. C.) 91 (2) 233-236, 1964

The triphosphoinositide phosphodiesterase of brain tissue (Thompson W. & Dawson R. M. C.) (With one plate) 91 (2) 237-243, 1964

The triphosphoinositide phosphomonoesterase of brain tissue (Dawson R. M. C. & Thompson W.) 91 (2) 244-250, 1964

The elution of scrapie brain tissue through calcium phosphate columns (Mould D. L., Smith W. & Dawson A. McL.) 91 (2) 13P only, 1964

The infectivities of brain-cell fractions from mice infected with Suffolk sheep-scrapie agent (Mould D. L., Dawson A. McL. & Smith W.) 91 (2) 13P-14P, 1964

The purification of enolase from cerebral tissue (Wood T.) 91 (3) 453-460, 1964

A radiometric study of cholinesterase and its inhibition (Winteringham F. P. W. & Disney R. W.) 91 (3) 506-514, 1964

Metabolism of amino acids in the lens (Waley S. G.) 91 (3) 576-583, 1964

'Bound' and soluble esterases in human brain (Bernsohn J., Barron K. D. & Norgello H.) 91 (3) 24c-26c, 1964

Membrane phosphoproteins and the adenosine-triphosphatase reaction in cerebral microsomes (Rodnight R. & Lavin B. E.) 91 (3) 24P-25P, 1964

J. Biol. Chem.

Effect of ischemia on known substrates and cofactors of the glycolytic pathway in brain (Oiver H. L., Passonneau J. V., Hasselberger F. X. & Schulz D. W.) 239 (1) 18-30, 1964

The relationships between substrates and enzymes of glycolysis in brain (Oliver H. L. & Passonneau J. V.) 239 (1) 31-42, 1964

An α-hydroxy acid decarboxylase in brain microsomes (Gabriel M. L. & Mead J. F.) 239 (1) 77-80, 1964

Metabolism of the retina. IV. The composition of vitamin A ester synthesized by the retina (Sidney F. & Andrews J. S.) 239 (1) 81-84, 1964

A neutral, calcium-activated proteinase from the soluble fraction of rat brain (Gordon G.) 239 (1) 149-155, 1964

Incorporation of dihydrouridine monophosphate and uridine monophosphate into liver and brain ribonucleic acid (Daniel O. C. & Grisolia S.) 239 (1) 160-166, 1964

Studies on the acetylcholine-stimulated incorporation of radioactively labeled inorganic orthophosphate into the phospholipid of brain particulate preparations (Durell J. & Mary Ann Sodd) 239 (3) 747-752, 1964

Isolation and properties of a new, biologically active peptide from sheep pituitary glands (Yehudith B. & Choh Hao Li) 239 (4) 1048-1052, 1964

Ion exchange chromatography of intact brain phosphoinositides on diethylaminoethyl cellulose by gradient salt elution in a mixed solvent system (Stewart H. H. & Ballou C. E.) 239 (5) 1369-1373, 1964

Biochemical studies on inositol. VII. Biosynthesis of inositol by a soluble enzyme system (Chen I-Wen & Charalampous F. C.) 239 (6) 1905-1910, 1964

J. Histochem. Cytochem.

The neuronal Golgi apparatus and lysosomes in neonatal rats. (Becker, N. H. & Sandbank, U.) 12 (6) 483-485, 1964

Histochemical demonstration of catecholamins by fluorescence induced by formaldehyde vapour. (Eränö, O.) 12 (6) 487-489, 1964

Journal of Neurochemistry

Volume 11 Number 4 April 1964

Georgina Rodriguez de lores Arnaiz and E. de Robertis: 5-Hydroxytryptophan-decarboxylase activity in nerve endings of the rat brain. 213

Sydell Gelber, Phyllis L. Campbell, Gladys E. Deibler and Louis Sokoloff: Effects of L-thyroxine on amino acid incorporation into protein in mature and immature rat brain 221

M. Bacila, Annibal P. Campello, C. H. M. Vianna and D. O. Voss: The respiratory chain of rat cerebrum and cerebellum mitochondria: Respiration and oxidative phosphorylation 231

Mieczyslaw Wender and Zbigniew Waligora: The content of amino acids in the proteins of the developing nervous system of the guinea pig spinal cord 243

A. Lowenthal, D. Karcher and M. van Sande: Electrophoretic patterns of lactate dehydrogenase isoenzymes in nervous tissues 247

F. T. Merei and F. Gallyas: Quantitative determination of [^{35}S]methionine incorporated into proteins of cell groups or nuclei of the CNS 251

F. T. Merei and F. Gallyas: Quantitative determination of the uptake of [^{35}S] methionine in different regions of the normal rat brain 257

F. T. Merei and F. Gallyas: Protein metabolism of the CNS at high plasma sodium level studied with [^{35}S]methionine 265

O. Z. Sellinger, D. L. Rucker and F. de Balbian Verster: Cerebral lysosomes—I: A comparative study of lysosomal N-acetyl-β-D-glucosaminidase and mitochondrial aspartic transaminase of rat cerebral cortex 271

V. R. Cunningham and E. J. Field: Alkaline phophatase isoenzyme systems of the guinea pig in health and in experimental allergic encephalomyelitis 281

W. C. McMurray: Metabolism of phosphatides in developing rat brain—I: Incorporation of radioactive precursors 287

T. Wood and P. D. Swanson: The occurrence of adenosine triphosphatecreatine phosphotransferase in particulate fractions from cerebral tissue and its coupling to the sodium-stimulated microsomal adenosine-triphosphatase 301

Volume 11 Number 5 May 1964

A. Edström: The ribonucleic acid in the Mauthner neuron of the goldfish 309

W. C. McMurray: Metabolism of phosphatides in developing rat brain—II. Labelling of plasmalogens and other alkali-stable lipids from radioactive cytosine nucleotides 315

D. B. Hope: Cystathionine accumulation in the brains of pyridoxine-deficient rats 327

Nella Mison-Crighel, Noemi Luca and E. Crighel: The effect of an epileptogenic focus, induced by topical application of mescaline, on glutamic acid, glutamine and GABA in the neocortex of the cat 333

M. H. Aprison, R. Takahashi and T. L. Folkerth: Biochemistry of the avian central nervous system—I. The 5-hydroxytryptophan decarboxylase - monoamine oxidase and cholineacetylase-acetycholinesterase systems in several discrete areas of the pigeon brain 341

B. Csillik: Histochemical model experiments on the ef effect of various

drugs on the catecholamine content of adrenergic nerve terminals 351

R. K. Datta and J. J. Ghosh: Effect of strychnine sulphate and nialamide on hydrogen bonded structure of ribonucleic acid of brain cortex ribosomes 357

Barbara J. Wallace, S. M. Aronson and B. W. Volk: Histochemical and biochemical studies of globoid cell leucodystrophy (Krabbe's Disease) 367

S. Løvtrup: A comparative study of the influence of chlorpromazine and imipramine on mitochondrial activity 377

J. M. Armoson and G. A. Horridge: An investigation of factor S of Crustacea 387

T. C. Westfall and D. T. Watts: The effect of nicotine on amines of brain and urine in the rat 397

Volume 11 Number 6 June 1964

K. Suzuki, S. R. Korey and R. D. Terry: Studies in protein synthesis in brain microsomal system 403

P. Joanny and H. Hillman: Further studies on the potassium and sodium concentrations of mammalian cerebral slices in vitro 413

T. G. Scott and V. C. Barber: An enzyme histochemical and biochemical study of the effect of an inhibitor of cholesterol synthesis on myelinating mouse brain 423

Y. Kakimoto, T. Nakajima, M. Takesada and I. Sano: Changes in carbohydrate metabolism of the mouse brain following the administration of 3, 4-dihydroxy-L-phenylalaine 431

V. S. Chitre, S. P. Chopra and G. P. Talwar: Changes in the ribonucleic acid content of the brain during experimentally induced convulsions 439

E. G. Brunngraber and Barbara D. Brown: Fractionation of brain macromolecules—II. Isolation of protein-linked sialomucopolysaccharides from subcellular, particulate fractions from rat brain 449

J. V. Auditore and H. Smith: Preparation, chromatographic-chemical analysis and pharmacological activity of extracts from human brain 461

E. Lewin and Helen H. Hess: Intralaminar distribution of Na^+-K^+adenosine triphosphatase in rat cortex 473

C. I. Mayman, P. D. Gatfield and B. McL. Breckenridge: The glucose content of brain in anaesthesia 483

J.D. Barchas and A.B. Lerner: Localization of melatonin in the nervous system 489

Brit. J. Pharmacol.

A proposed common mechanism of action for general and local anaesthetics in the central nervous system (Frank G.B. & Sanders H.D.) 21 (1) 1-9, 1963

The pharmacology of new adrenergic neurone blocking agents, N-p-cyclohexylbenzyltropinium derivatives (Doda M., Feher O., György L. & Nador K.) 21 (1) 10-26, 1963

Tachyphylaxis to some sympathomimetic amines in relation to monoamine oxidase (Day M.D & Rand M.J.) 21 (1) 84-96, 1963

The release of acetylcholine by sympathetic nerve stimulation at different frequencies (Burn J.H., Dromey J.J. & Large B.J.) 21 (1) 97-103, 1963

Removal of interfering nucleotides from brain extracts containing substance P. Effect of drugs on brain concentrations of substance P. (Laszlo I.) 21 (1) 113-126, 1963

The effects of choline and other factors on the release of acetylcholine from the stimulated perfused superior cervical ganglion of the cat (Matthews E.K.) 21 (2) 244-249, 1963

The subcellular localization of dopamine and acetylcholine in the dig caudate nucleus (Laverty R., Michaelson I.A., Sharman D.F. & Whittaker V.P.) 21 (3) 482-490, 1963

An attempt to study the effects of chemical structure on the affinity and efficacy of compounds related to acetylcholine (Barlow R.B., Scott K.A. & Stephenson R.P.) 21 (3) 509-522, 1963

Brit. J. Pharmacol.

Some observations on the pharmacology of a-methyldopa (Day M.D. & Rand M.J.) 22 (1) 72-86, 1964

Observations on a vasoactive material in brain extracts (White T.) 22 (1) 113-118, 1964

Actions of prostaglandins E_1, E_2 and E_3 on the central nervous system (Horton E.W.) 22 (1) 189-192, 1964

A sensitive method for the assay of catechol amines (Armitage A.K. & Vane

J.R.) 22 (1) 204-210, 1964

Angiotensin and peripheral sympathetic nerve activity (Benelli G., Della Bella D. & Gandini A.) 22 (1) 211- , 1964

Influence of methyldopa on central effects of reserpine (Benfey B.G. & Varma D.R.) 22 (2) 366-370, 1964

Effects of central depressant drugs upon acetylcholine release (Matthews E. K. & Quilliam J.P.) 22 (2) 415- , 1964

Actions of hemicholinium (HC-3) on neuromuscular transmission (Evans E.R. & Wilson H.) 22 (3) 441-452, 1964

The action of morphine-like drugs onimpulse transmission in mammalian nerve fibres (Kosterlitz H.W. & Wallis D.I.) 22 (3) 499-510, 1964

The part played by calcium in determining the response to stimulation of sympathetic postganglionic fibres (Burn J.H. & Gibbons W.R.) 22 (3) 540-548, 1964

The sympathetic postganglionic fibre and the block by bretylium; The block prevented by hexamethonium and imitated by mecamylamine (Burn J.H. & Gibbons W.R.) 22 (3) 549-557, 1964

Psychopharmacologia

Eating, drinking and activity in rats following 5-hydroxytryptophan (5-HTP) administration. (Joyce, D. and N. Mrosovsky) 5 (6) 417-423, 1964

Avoidance behaviour in the rat after 5-hydroxytryptophan (5-HTP) administration. (Joyce, D. and H.M.B. Hurwitz) 5 (6) 424-430, 1964

The effect of chlorpromazine, phenmetrazine, imipramine and physostigmine on the exploratory and conditioned avoidance reaction in rats with different excitability of the central nervous system. (Soušková, M., O. Benešová and Z. Roth) 5 (6) 447-456, 1964

Some effects of morphine and amphetamine on intellectual functions and mood. (Evans, W.O. and R.P. Smith) 6 (1) 49-56, 1964

J. Physiol.

The developing motor end-plate: Pharmacological studies in the chick embryo (Drachman,D.B.) 169 (4) 707-712, 1963

The action of cerebrospinal fluid on the frog rectus abdominis muscle and other isolated tissue preparations (Ramwell,P.W.) 170 (1) 21-38, 1964

Substance P in brain extracts (Cleugh J., Gaddum,J.H., Mitchell A.A., Smith M.W. & Whittaker,V.P.) 170 (1) 69-85, 1964

Cortical pH and the blood-brain barrier (Rapoport S.I.) 170 (2) 238-249, 1964

Acetylcholine release into different parts of the perfused cerebral ventricles of the cat (T) (Beleslin D., Carmichael E.A. & Feldberg W.) 170 (2) 54P Title only, 1964

Some pharmacological properties of cholinoceptive neurones in the medulla and pons of the cat (Bradley P.B., Dhawan B.N. & Wolstencroft J.H.) 170 (2) 59P-60P, 1964

The effect of diluting the internal solution on the electrical properties of a perfused giant axon (Baker P.F., Hodgkin A.L. & Meves H.) 170 (3) 541-560, 1964

The rate of formation and turnover of phosphorus compounds in squid giant axons (Caldwell P.C., Hodgkin A.L. Keynes R.D. & Shaw T.I.) 171 (1) 119-131, 1964

Ann. Méd. -Psychol.

Les modifications neuro-endocrines déterminées par le stress thérapeutique appliqué aux malades psychiques (Pirozynski T., N. Parus, en collaboration avec O. Moraru, E Pricop, O. David) 122-1 (4) 567-593, 1964

La constitution asthénique et la fatigabilité peuvent-ellesetre amendées ? L'action de la phosphocréatinine synthétique (Chatagnon C. and P.A. Chatagnon) 122-1 (4) 615-625, 1964

Quelques explorations biologiques: les équilibres phosphocalcique, plasmatique et urinaire; les phosphatases au cours de l'action therapeutique du 8075 C.B. (hydroxy-17- -méthyl-17- -oxo-2-androstanone-2) (Chatagnon, C. et P.-A. Chatagnon) 122-2 (1) 89-98, 1964

The British Journal of Psychiatry (J. mest. Sci.)

The effect of urinary fractions from schizophrenic patients on the electrical activity of the brain (Kemali D.) 110 (467) 576-581, 1964

Urinary excretion of some purine bases in normal and schizophrenic subjects (Booth D.A. and E.B.O. Smith) 110 (467) 582-587, 1964

Calcium metabolism in states of depression (Flach Fredric F.) 110 (467) 588-593, 1964

Salivary and blood pressure responses to methacoline in depressive illness (Davies Brian, and George Palmai) 110 (467) 594-598, 1964

Encephale

Antagonisme experimental de la chlorpromazine et de la thioridazine vis-a-vis de certains effects du lysergide. (Nakajima H., J.-L. Grandjean, J. Lhuillier and J. Thuillier) L111 (1 bis) 131-141, 1964

Endocrinology

Serotonin suppression of luteinzation in gonadotrophin-treated, immture rats (O'Steen, W.K.) 74 (6) 885-888, 1964

Inhibition of vasopressin release in rats by chlorpromazine and reserpine (Moses, A.M.) 74 (6) 889-893, 1964

ACTH release in vivo and in vitro : Extrapituitary mediation during Esch. coli bacteremia (Ando S., L.B. Guze, and E.M. Gold) 74 (6) 894-901, 1964

Pathways by which traumatic stress and ether induce increased ACTH release in the rat (Matsuda K., C. Duyck, J.W. Kendall, Jr., and M.A. Greer) 74 (6) 981-985, 1964

Effect of stress on glycogen and phosphorylase in the rat anterior pituitary (Jacobowitz D., and B H. Marks) 75 (1) 86-88, 1964

Neurophypophysial hormones of chickens and turkeys (Munsick, R.A.) 75 (1) 104-112, 1964

Epilepsia

Serum diphenylhydantion (Phenytoin) in ambulant patients with epilepsy. (Lund M., R.S. Jørgensen and V. Kuhl) 5 (1) 51-58, 1964

The Journal of Clinical Investigation

Abnormalities of albumin metabolism in patients with hypogammaglobulinemia, (Thomas A. Waldmann and Leonard Laster) 43 1025-1035, 1964

Metabolism of human gamma macroglobulins, (Werner F. Barth, R. Dean Wochner, Thomas A. Waldmann, and John L. Fahey) 43 1036-1048, 1964

Antibodies to human growth hormone (HGH) in human subjects treated with HGH, (Jesse Roth, Seymour M. Glick, Rosalyn S. Yalow, and Solomon A. Berson) 43 1056-1065, 1964

Effect of erythrocyte destruction on carbon monoxide production in man, (R.E. Coburn, W.J. Williams, and R.E. Porster) 43 1098-1103, 1964

Gamma$_2$, gamma$_1$, and gamma$_1$ antinuclear factors in human sera,

(Eugene V. Barnett, John J. Condemi, Condemi John P. Leddy and John H. Vaughan) 43 1104-1115, 1964

Effects of dopamine in man: augmentation of sodium excretion, glomeruler filtration rate, and renal plasma flow, (Robert H. McDonald, Jr., Leon I. Goldberg, John L. McNay and Elbert P. Tuttle, Jr.) 43 1116-1124, 1964

Immunologic and biologic study of human chorionic gonadotropin, (Shinichi Hamashige and Edward R. Arquilla) 43 1163-1174, 1964

Biologic properties of polynucleotides. IV. Studies on the mechanism of complement inhibition by polyinosinic acid together with observations on the in vivo effect of polyinosinic acid on complement activity, (Stanley Yachnin and Daniel Rosenblum) 43 1175-1184, 1964

Synthesis of ribonucleic acid in rabbit blood cells in vivo, (Robert H. Debellis, Norman Gluck and Paul A. Marks) 43 1329-1337, 1964

Studies on iron absorption. Intestinal regulatory mechanisms, (Munsey S. Wheby, Lee Roy G. Jones and William H. Crosby), 43 1433-1442, 1964

Convertion of cholesterol to trihydroxycoprostanic acid and cholic acid in man, (James B. Carey, Jr.) 43 1443-1448, 1964

Effects of guanethidine, reserpine, and methyldopa on reflex venous and arterial constriction in man, (Dean T. Mason and Eugene Braunwald) 43 1449-1463, 1964

Squalene in human and rat blood plasma, (DeWitt S. Goodman) 43 1480-1494, 1964

Defective uptake of basic amino acids and L-cystine by intestinal mucosa of patients with cystinuria, (C. F. McCarthy, James L. Borland, Jr., Harold J. Lynch, Jr., Edward E. Owen and Malcolm P. Tyor) 43 1518-1524, 1964

Studies of the reticuloendothelial system (RES). III. Blockade of the RES in man, (Henry N. Wagner, Jr., and Masahiro Iio) 43 1525-1532, 1964

Effects of the prostaglandins on hormone-induced mobilization of free fatty acids, (Daniel Steinberg, Martha Vaughan, Paul J. Nestel, Ove Strand and Sune Bergstrom) 43 1533-1540, 1964

Micropuncture study of inorganic phosphate excretion in the rat, (James C. Strickler, David D. Thompson, Ruth M. Klose and Gerhard Giebisch) 43 1596-1607, 1964

Physiologic studies of antidiuretic hormone by its direct measurement in

human plasma, (J. W. Czaczkes, C. R. Kleeman and M. Koenig) 43 1625-1640, 1964

Mechanisms of impaired water excretion in adrenal and pituitary insufficiency. IV. Antidiuretic hormone in primary and secondary adrenal insufficiency, (C. R. Kleeman J. W. Czaczkes and Ralph Cutler) 43 1641-1648, 1964

The effect of various states of hydration and the plasma concentration on the turnover of antidiuretic hormone in mammals, (J. W. Cazczkes and C. R. Kleeman) 43 1649-1958, 1964

The interrelated effects of dietary cholesterol and fat upon human serum lipid levels, (William E. Connor, Daniel B. Stone, and Robert E. Hodges) 43 1691-1696, 1964

Pharmacodynamic effects of beta-adrenergic recepter blockade in patients with hyperthyroidism, (William R. Wilson, Ernest O. Theilen, and Fred W. Fletcher) 43 1967-1703, 1964

Neurology

Methods of measurement in encephalography (Arne Engeset and Egil Skraastad) 14 381-385, 1964

Hypoglycemia and seizures in childhood; The etiologic significance of primary cerebral lesions, (James E. Etheredge, Jr. and J. Gordon Millichap) 14 397-404, 1964

High arterial pCO, low pH, tge ACh-AChE system in the medulla and respiratory activity, (Bernard Metz) 14 425-433, 1964

Lead encephalophathy caused by ingestion of illicitly distilled whiskey, (Charles E. Morris, Albert Heyman and Thomas Pozefsky) 14 493-499, 1964

Insufficient parahydroxylation as a cause of diphenylhydantion toxicity, (Henn Kutt, Michael Wolk, Rolf Scherman and Fletcher McDowell) 14 542-548, 1964

Cholic acid as a demyelinating agent in vivo, (Harold J. Micholas and Betty Herndon) 14 555-560, 1964

Effect of acetazolamide on brain and blood pH, (James R. Atkinson and Arthur A. Eard) 14 561-564, 1964

Serum serotonin in nervous system disease, (D. T. Krieger, H. D. Kolodny and R. R. P. Warner) 14 577-580, 1964

Treatment of multiple sclerosis with intrathecal steroids, (Charles van Buskirk, Arthur L. Poffenbarger, Luis F. Capriles and Braulio V. Idea) 14 595-597, 1964

Ultrastructure of the leptomeninges in experimental allergic encephalomyelitis, (Jose J. Bubis and Asrah A. Luse) 14 616-622, 1964

The histomorphology to experimental excitation, (L. Liss, D.A. Solze and R. Fischer) 14 631-635, 1964

Cerebral arteriography during migraine prodrome and headache, (Herbert T. Dukes and Roger G. Vieth) 14 636-639, 1964

Histochemistry of esterases of the motor end-plates and the lumbar motoneurons of the cat after sciatic neurectomy followed by primary and secondary anastomosis, (Ture O. Tuncbay) 14 657-667, 1964

編 集 後 記

編集者・高垣が1965年秋，東京で行われる予定の国際生理科学会のため非常に多忙で，“神経化学”誌の発刊が大変おくれてしまったことをこゝに深くお詫び致します。今回から3回にわたって VOL. 3, No. 3 No. 4 及び No. 5 として，神経化学関係の文献の表題のみをとりあえず収録して発刊致すことにします。猶VOL. 3, No. 6 は会員名簿を収録しました。今后次第に“神経化学”誌の内容を充実するとともに，その発刊を正常に戻すように努力致します。
